

What Meredith, Tina, Bergen, Gretchen and I Saw One July Day

The ever shifting light, cloud, weather, shadow
The peat in bags, the drumlins, loughs reflecting light
The rock, the trees, the falling water stained by peat
The well, it's holy water, the cave carved from the rock
The moss dressed trees, bubbles from the well
The feathers, song thrush, surprise of heron swoop through Glen
Heart pebble and river rock with white feather
Water trickling, mizzling, flowing, cascading, the heart
The Pot, the source, the memory, the flowing back, trickling
